Product data sheet

# Automatic tape measure "Speed Tape"

COMING SOON

Article number: 32-0028_C - PU 25

**MEASURE WITHOUT A SECOND ATTEMPT**
**Take out the tape, look at it, it fits. Whether in the shell construction, in the workshop or quickly in between on the ladder, the hook sits on tension or impact and remains reliably where it belongs. One push and the tape glides back in a controlled manner, ready for the next measurement. Precise when it matters.**
